

## ***PAUSE BEFORE YOU CHECK 'EM***

Each month, more than 45 tons of CDs become obsolete and end up in landfills and incinerators – and in landfills they can take centuries to biodegrade. Recycling these no longer wanted items is easier than skipping to the next song. Here's how . . . . .

Greendisk Technotrash Pack-It: recycle any electronic waste in your home (up to 25 pounds) through this mail-in service (\$10).

For More Information:

<http://www.greendisk.com/gdsite/pack-itservices.aspx>

ACT Recycling: recycle videocassettes and computer disks through an organization that provides jobs to disabled people. For More Information: <http://www.actservices.org/donations>

Many nonprofits such as Goodwill will take old CDs, DVDs, computer games and most computer waste. Check your local listing for Goodwill Industries information.

In Lake Forest:

Goodwill Industries

23740 El Toro Road, Ste E  
Lake Forest, CA 92630  
949-470-2040
